GENERAL DESCRIPTION

Fil is a light designed in 1991 by the architect Alvaro Siza Vieira which artlessly reveals the essence of an electric light: a support, the electric wire with the light bulb and a shade.

DIMENSIONS

MODELS

Single model.

MATERIALS AND FINISHES

Structure made from stainless steel rod, 6 mm in diameter. The different elements are welded together using silver brazing. The welded joints are subsequently polished.

Shade and shade support made in steel plate, 8 mm thick. The shade is polished so that one side is glossy and the other matte.

Includes a transparent plastic lamp. European plug and unipolar hand switch, with flat piped cable, 2x0.75 mm². H03VVH2-F.
