MATERIALS AND FINISHES

Free-standing coat hanger

Aluminium tube of 30x2 mm of diameter painted in silver RAL 9006, black RAL 9005 or white RAL 9002. Ten brilliant, matte or black chromed brass coat hangers are fixed with screws in the tube. Cast iron concave base of 300 mm of diameter and painted in micro-textured epoxy of dark grey RAL 7022, black RAL 9005 or white RAL 9002. A circular rubber is placed on the bottom of the base to protect the floor.

Multiple wall coat hanger

Hanger composed by an aluminium profile painted in silver RAL 9006, black RAL 9005 or white RAL 9002. Five brilliant, matte or black chromed brass coat hangers are joined by screws to this profile. It is supplied with a bi-chrome steel plate to help align several hangers.

Individual wall coat hanger-hook

Brass chrome hangers of 35 mm or 68 mm long screwed on the wall. A chromed washer is supplied.

Hangers (optional)

They are made of an injected piece by transparent polycarbonate and a chromed iron hook, rounded at the edge to avoid any damage on the clothes hanged on it. This component is placed on the mould when it is injected, thus achieving a single piece. They are supplied in 6- unit packs.
