### MATERIALS AND FINISHES

Finishes: white (RAL 9002), turquoise (RAL 6034) and dark grey (RAL 7022). All metallic pieces are finished with epoxy powder coating, 80 micron, 30% matt.

#### Base

Circular base with 350 mm diameter made of steel plate, 6 mm thick. Five locations to place ferrules made of polyamide, black colour, are placed on the inferior side and separated 8mm from the pavement.

#### Structure

Central structure made up with 2 circular tubes: bottom tube made of aluminium, 30x2 mm diameter; top tube made of steel, 20x1.5 mm diameter.

The umbrella stand-hanger model consists of two tubes. In the bottom tube it fits, at each end, the same machined piece that permits the union of the two tubes, allowing threading it to the base.

#### Coat Racks

They are made of high impact polystyrene injection piece. Its design allows fitting one piece to the other, concealing the top tube. Thanks to its shape and inclination, different types of clothes, accessories and hangers can be hung on it. The components are fixed to the tube by means of a screw and a washer.

#### Hangers (optional)

They are made of an injected piece by transparent polycarbonate and a chromed iron hook, rounded at the edge to avoid any damage on the clothes hung on it. This component is placed on the mould when it is injected, thus achieving a single piece. They are supplied in 6- unit packs.

#### Umbrella stand-hanger

This version has a rounded piece 540 mm above the pavement enabling to place umbrellas. It is made of steel banister, 20x5 mm, with 280 mm diameter.

A concave piece made in ABS and finished with the same colour of the other components, is placed in the base, allowing collecting the water dripping from the umbrellas.

### PACKAGING, WEIGHT AND VOLUME

#### **Coat Rack**

Box base and coat racks

Weight: 6.5 kg

Size: 43.5x43.5x12 cm

Volume: 0.02 m<sup>3</sup>

Box Structure

Weight: 1.5 kg

Size: 180x6x6 cm

Volume: 0.006 m<sup>3</sup>

#### **Coat rack and umbrella stand-hanger**

Box base and coat racks

Weight: 7 kg

Size: 43.5x43.5x12 cm

Volume: 0.02 m<sup>3</sup>

Box Structure

Weight: 2 kg

Size: 180x6 cm

Volume: 0.006 m<sup>3</sup>

#### **Umbrella stand**

Weight: 7.3 kg

Size: 13.5x43.5x12 cm

Volume: 0.02 m<sup>3</sup>

#### **Hangers (optional)**

Weight: 0.75 kg

Size: 22x4x7cm

Volume: 0.06 m<sup>3</sup>

All packaging is made of double cardboard box, 100% recyclable.
