GENERAL DESCRIPTION

Family of stools 45 cm, 60 cm and 75 cm height. Made of solid beech, oak or oak stained walnut color. For offices, shops and home.

DIMENSIONS

MODELS

Luco of 45 cm

Luco of 60 cm

Luco of 75 cm

MATERIALS AND FINISHES

Both the seat and the 3 feet are made of solid beech or oak wood, molded with lathe and post-manufactured and mechanized with numeric control to achieve the perfect integration of the components.

The four pieces are glued together to enable a correct settlement and appropriate position of the components.

The glue used belongs to the D-2 group, according to DIN EN-204 regulations.

Afterwards, the whole stool is lacquered with water-base varnish. The piece is scrubbed and refined; two layers with a scrub between them and a final coat of water-based varnish.

With this procedure the stool is preserved from the action of atmospheric agents, achieving at the same time physical and chemical resistance.

The models of 75 cm and 60 cm have a footrest which is a “T”-shaped structure made of steel rod, of 12 mm and 14 mm in diameter, finished with cataphoresis and 80 micron epoxy powder coating, 30% matt, black colour. This structure is fixed to the wood legs by means of 3 screws, DIN 7991 M8.

PACKAGING, WEIGHT AND VOLUME

Luco 45 cm

Weight: 2.5 kg

Box dimensions: 42x42x46.5 cm

Volume: 0.082 m³

Luco 60 cm

Weight: 3.5 kg

Box dimensions: 42x42x61.5 cm

Volume: 0.108 m³

Luco 75 cm

Weight: 3.85 kg

Box dimensions: 48x45x76.5 cm

Volume: 0.16 m³

All packaging is made of double cardboard box, 100% recyclable.
