

# Outdoor

Enjoy a nice time outside

Mobles114

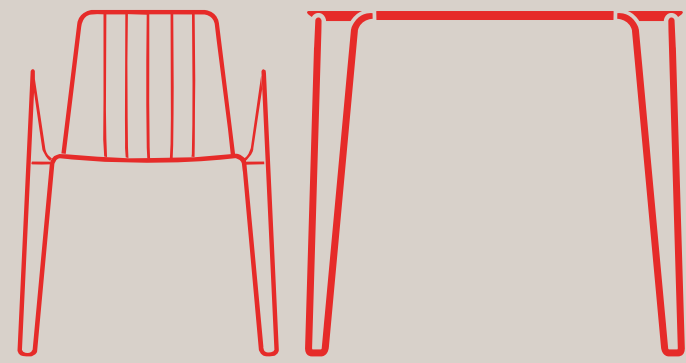

Mobles 114 editions, founded in 1973 is a producer specialising in contemporary furniture based in Barcelona. We foster creativity and design in interiors and architecture via a wide range of products that, as a whole, embody the aesthetic approach identified by the Mobles 114 brand. Our products are produced with extensive consideration and insight into the requirements involved in each proposal.

This is precisely why we place our trust in furniture designers that can go beyond the creative process per se, investigating material development and pushing their role even further to become a solution, while always meeting the demands of quality and practicality with the aim of anticipating users' needs.

tous les soirs

Its continuous aluminium tube and its polypropylene seat makes it extremely light and resistant.

Tube adapts perfectly to this iconic bar of the 'Place de la Victoire' thanks to its adaptability to different indoor and outdoor environments. In addition to being stackable and easy to maintain, its continuous aluminium tube and its polypropylene seat makes it extremely light and resistant.

Stands out for the use of spaces between the interior and the exterior with a natural air conditioning.

The house, which belonged to the astronomer Josep Comas i Solà, has been rehabilitated to take a new cultural function. A new building with reduced energy consumption has been incorporated into the house and garden. The building, remodelled by SUMO Arquitectes SLP and Yolanda Olmo, stands out for the use of spaces between the interior and the exterior with a natural air conditioning.
